Janome Software Skill Builders

This years club will begin with a good review of the software. We'll then continue our journey through Digitizer MB/Pro and see what else there is we can do. How about echo quilting with our software, or maybe blending several colors together? Should we try playing with the wreath tools and see what we can come up with? I have a basic outline for the year, but would love some input as to what you would like to learn.

Mary

Supplies:
