Embroidery Club Supply List

Reversible Appliqué

This month we will be learning the reverse method of appliqué embroidery. The “background” fabric will be on top and the appliqué fabric underneath. You may want to embroider a t-shirt for the spring, or just a square of fabric that may become a quilt block later. The designs should be fairly simple shapes, easy to cut away the top fabrics, while remaining in the hoop. Just like basic appliqué, except backwards.....

Supplies

1. Embroidery machine, cleaned, oiled, & ready to sew
2. Schmetz or Organ embroidery needles size 80/12
3. Embroidery threads - colors for your designs
4. 2-3 Bobbins wound to match your main color
5. One piece of medium weight stabilizer (Polymesh for knits, and Ultra Clean & Tear for wovens)
6. Aqua Mesh Plus (WSS sticky stabilizer)
7. Appliqué scissors
8. Thread snips
9. ½ yd. Steam-A-Seam2 fusible web (optional)
10. Small quilters iron - Hobbico or Clover

**Look on the back page for design suggestions.

*Remember—KISS (keep it simple sister)
