

Serger Know How

Student Supply list

This class is included with the purchase of a serger at Redlands Sewing Center (also available for a fee if you purchased elsewhere). Learn all about needles and threads, as well as threading tips. 3 thread and 4 thread applications, changing settings, working with differential feed, decorative sewing, and much more will be covered in these two 3 hour hands-on sessions.

Prerequisite: You must have taken your serger out of the box. We prefer that you have had a “stitch in” with your sales associate and learned how to thread your machine before class.

Bring to class:

- Machine with foot control and power cord
- Instruction Manual
- Small scissors
- Permanent marking pen (to write on fabric)
- Accessories (everything that came with your serger)
- 4-5 spools of high quality thread to match color of dots on machine. * Babylock owners; thread to match your Quick Reference threading guide.
- 1 Pkg. new unused needles
- 1 spool Wooly Nylon for second class

Please visit our web site for our Class Policies.
