Basics Embroidery Club Stand Alone Lace Supply List

This month in club we will be exploring the techniques for embroidering stand alone laces. Stand alone laces may be ornaments for holiday decorations, trims for socks, collars, and curved or straight edgings for garments and table linens . Some laces appear to be stand alone, yet they fall apart when the water soluble stabilizers are washed out. If you are not sure if the design chosen is truly “stand alone” lace, add polyester organza as an additional stabilizer.

Design options:

OESD’s Design Library (ETO) has lace collections—some of you may have the lace ornaments and decorations from the gift with purchase from OESD in the past three years. These designs are great for class.

Collars may be found in the Austrian lace Collection from OESD OESD Lace 1 #11514 design #NX 233 or go to Www.embroideryonline.com to look through the entire catalogue.
**visit RSC to look in the ETO catalog and use your club discount.....

Anita Goodesign has lace bookmarks.

Crisswell has some beautiful lace ornaments—the catalogue is in the store and the design collections are reasonably priced.

Dakota Collectibles also has some lace designs available.

Great Notions Lace 1 or Lace 2

Supply List: cont....
